

## Clinical Consultant

Management Strategists Consulting Group, LLC (MSCG, LLC) is currently recruiting clinical consultants to conduct onsite reviews to assess compliance with requirements of Health Resources and Services Administration's (HRSA) HIV/AIDS Bureau (HAB) Ryan White programs. The clinical consultant serves as a content expert for the delivery of HIV/AIDS care, treatment and support services for Parts A, B, C, D and F-Dental funded programs. Clinical consultants should be U.S. trained, actively licensed and have expertise in HIV counseling, testing, referral, and patient enrollment, HIV medical care, other services to support HIV clinical outcomes, and clinical quality management programs. Qualified persons shall have reflected in their résumé/CV the following criteria:

- Current and active license in a State or Territory of the United States to provide medical care as an MD, DO, PA, NP, RN or dental care as an DDS, or DMD as evidenced by receipt of a current and active license from a State or U.S. Territory licensing Board on-line verification system.
- Provision of direct outpatient HIV medical care to patients for at least five years in the licensed medical care role.
- Direct provision of outpatient HIV medical care to patients within the United States or U.S. Territory within the last three years.
- Completion of 15 hours of HIV continuing medical education/continuing nursing education for the preceding calendar year.

Consulting assignments are generally 2-3 days at a Ryan White grant recipient site and includes a consultant team of no more than 3 experts. 24 hour travel assistance provided. Timely payment and reimbursement. Bi-lingual clinicians are also strongly encouraged to apply.
